## TECHNICAL DATA SHEET: LUBRICANTS

### TOPLUBE DEGREASER

#### DESCRIPTION

Toplube Degreaser is a solvent based degreasing fluid incorporating an emulsifying agent to aid when rinsing with water.

This product rapidly dissolves oil, grease and other deposits which bind dirt particles to the surface of the component.

#### APPLICATIONS

Toplube Degreaser can be applied by brush, dipping or low pressure spray and can easily be removed with water by pressure washer or hose pipe.  
This product can also be used in parts washers where a solvent based product is recommended.

#### BENEFITS

- Incorporates an emulsifying agent to aid rinsing.
- Dyed Red to aid identification.
- Rapid penetration action
- Can be applied by brush, dip or low pressure spray.
- Can be used on metal, wood and certain plastics.

Issue 1 Degreaser MAK (19.05.17)
