TECHNICAL DATA SHEET: LUBRICANTS

TOPLUBE SUPER 30

DESCRIPTION

Toplube Super 30 is mineral based monograde marine engine lubricant incorporating specially selected additives that provide excellent detergent, dispersant, anti-wear and anti-corrosion protection.

Toplube Super 30 is manufactured incorporating a TBN booster (minimum 15) which imparts into the lubricant an enhanced ability to neutralize damaging acidic compounds from the combustion process.

APPLICATIONS

Often used in marine and stationary engines where multi-grade products are not acceptable.

Toplube Super 30 can also be used in certain transmissions, rollers and chain drives.

With a proven track record in the marine industry Toplube Super 30 has given many hours of trouble free service historically.

Toplube Super 30 is recommended where the following specifications are required.

SPECIFICATIONS

API CF/CF-2

MB 228.0

Allison C-4

ZF-TE-ML 02H/04B

API SG
